FRIDAY, OCTOBER 21.

PEDRO PEREA.
OF DEMOCRATIC.

Puerto Rico is Uncle Sam's, Cuba and the Philippine Islands will soon follow suit.

The nearer to election day, the brighter appear the chances for Republican success.

Eighteen days until election, at which Pedro Perea will receive a majority of the votes cast in this territory.

As campaign fairs, more or less esteemed Democratic contemporaries are a shining and unqualified success.

See that you are registered before Saturday night, October 22. Do not lose your vote through carelessness and neglect.

The voters of the territory must be registered before Saturday night, October 22, in order to vote at the coming election.

The voters should remember that the best interests of New Mexico demand the election of Hon. Pedro Perea as the delegate to congress.

Mr. Ferguson is still trying to drive the protection Republican stand and the free trade Democratic was in the same harness. Tough job, that, for him.

The Democratic campaign managers are great claimers. If there is any substance to political claims, that sort of tactics is good politics. But otherwise it is poor politics.

There are some hopes for the future of the average Denverite after all. Dwight L. Moody, the evangelist, is holding a series of revival meetings in that city. If the newspaper men of Denver could only be reached by Mr. Moody!

With a majority of staunch and reliable Republicans in the 33d legislative assembly, the laws passed will have in view the interests of the tax payers, and not those of favored cliques and political friends.

The New York Herald expresses the opinion that Colonel Roosevelt will not be elected governor of New York. But then the New York Herald has been mistaken before and it will be found that the paper is mistaken this time, again.

Hon. Pedro Perea, by his fair method of conducting his campaign, is making many friends in the ranks of the Democratic party, and many Democratic tickets cast will be quietly doctored in a way that will deprive Mr. Ferguson of much of the strength he is now counting upon.

On the morning of election day let every voter in New Mexico repair to the polls determined to vote for the best interests of the territory and the people. A little study of the records of the two parties aiding the suffrage of the voters will convince all that the Republican party and its candidates alone can accomplish for the territory that which is most desirable in the way of legislation.

A Democratic sheet in Las Vegas thinks it is doing great things by trying to belittle Governor Otero and the present Republican territorial administration. This course does not hurt the governor any, as he is strong with the people, who know that his administration is clean, able and efficient. What good this course will do the city of Las Vegas may appear in the future.

Mr. Perea can stand Democratic abuse and lies. He is known all over New Mexico as a man true to his word, energetic, thoroughly honest, aggressive, able, independent and always strongly working for the advancement and best interests of the territory. His private and public record so prove. Democratic lies and falsehoods may cause temporary annoyance, but they cannot injure him in the estimation of the people. He will be elected.

to be embellished with a sheep on each side, as it is claimed for him by the Democratic newspapers that he procured the sections in the Dingley tariff law, that put a duty on wool and also on foreign cattle. The fact that the Dingley tariff was passed by a Republican president cuts no ice, you know. Mr. Ferguson

claims the credit for the measure, although a Democrat and running on a Democratic ticket, and therefore it must be so.

Advices from San Miguel county indicate that the Union party officials and gangsters there are preparing for election frauds. In Las Vegas they will endeavor to stuff the ballot boxes and poll illegal votes. Forewarned is forearmed. The Republicans of San Miguel must be up and doing. It will also be well to keep a sharp lookout for Glendale county election matters; the Union party gang of the neighboring county intends some skulduggery in that county also.

Hon. Pedro Perea is a native born citizen, a patriot, a staunch Republican and a friend of the people. His election as delegate to congress will reflect credit upon the voters and benefit the territory in many ways. Two of them directly and immediately: It will convince capitalists that New Mexico is a safe place in which to invest money, and satisfy the members of congress that the territory is entitled to admission as a state.

New Mexico Benefited by Protection.

As a slight indication of what the Republican policy of protection has done toward opening the markets of the world to American products, the following figures will be of interest to the free traders: For nine months ending September 1, the exports from this country to foreign lands amounted to \$25,567,362, or \$196,399,256 more than for the same period in 1895, when the Wilson tariff law was in effect. The increase in the sales of cattle abroad amounted to about \$7,000,000, and it is safe to say that the people of New Mexico received their share of that amount. The foreign demand for meats not only benefited the cattle men, but the sheep men as well, as the great advance in prices the past two years positively indicates. The voters of the territory will hardly say by their ballots that a condition of that kind is no longer wanted by voting for a Democratic delegate to congress and Democratic members of the legislature. The record on the tariff question made by the Democratic party in the past years is such that the friendliness to protection professed by the Democrats of New Mexico at this time will not deceive any one.

Every Man Should Do His Duty.

The territory of New Mexico contains an area equal in extent to the six New England states, New York and New Jersey. Within her boundaries are inexhaustible deposits of gold and silver, copper and lead, coal and sulphur, and many other ores of value and utility; the valleys are fertile and productive, the grazing lands are of vast extent; the population numbers more than 200,000 people, and still statehood is denied by congress.

Those who are in a position to know the real situation are firm in their belief that statehood would result in developing the mines, settling up the vacant lands, building railroads through those parts of the territory which are now without transportation facilities to the outside world, and covering the plains and mesas with herds of cattle and sheep; in fact, would make of New Mexico what nature intended, one of the most populous and prosperous sections of the United States. Statehood is apparently the one thing needed to solve the questions of taxation and debt, which are now perplexing the people, and in view of the many good reasons for admitting the territory as a state, the proper steps should be taken to accomplish that end.

There is but one way to succeed, and that is to elect a Republican delegate to congress and a Republican majority to the 33d legislative assembly. Just so long as the members of congress from the northern and eastern states have reason to believe that the people of New Mexico are wedded to political fallacies, are worshipping false gods and refuse to say by their ballots that they believe in those principles which have brought prosperity to the country at large, just that long will statehood be denied.

On November 8 the voters will have an opportunity to place themselves in the right light before the states, and that opportunity must not be allowed to pass and thus defer statehood for many years. Hon. Pedro Perea, the Republican candidate for delegate to congress, is worthy of every vote in the territory; as a member of congress he will command the respect of the congressmen and senators; his knowledge of the territory will enable him to press those matters which are of vital importance with a backed degree of success. On election day every man in the territory is expected to do his duty in aiding to secure statehood, and duty demands that Mr. Perea must be elected.

J. A. Ancheta, Republican Nominee for Council from Eighth District.

Hon. J. A. Ancheta, Republican candidate for the legislative council from the counties of Dona Ana and Grant, is one of the young men of the territory to whom honors come deservedly, and his nomination in the 8th district has greatly strengthened the Republican ticket in the two counties composing it.

Mr. Ancheta was born in Mesilla, Dona Ana county, on July 21, 1865, and received his education in St. Michael's college in Santa Fe and Notre Dame university, Indiana, where he received a diploma as a civil engineer and the degree of bachelor of laws. In 1886 he was admitted to the Indiana bar by the supreme court of that state, and in December of the same year was admitted to the New Mexico bar. Shortly afterward he was appointed district attorney for the 3d judicial district, which office he filled with credit to himself and the satisfaction of the people of the district.

Politically, Mr. Ancheta has been an ardent Republican from his boyhood, and in 1890 was rewarded for his faithful work for the success of the party in Grant and Dona Ana counties by an election to the council of the 29th legislative assembly.

The legislature, when it met the following January, took up the bill introduced to establish public schools in the territory, and Mr. Ancheta became an ardent advocate of the measure. His work to pass that bill and the attempt

made to assassinate him while the bill was pending, are known to the people of the territory too well to require repeating here. In 1895, Mr. Ancheta was again elected to the council, and his services in that body, during both terms of which he was a member, were of the highest and most approved order. To his efforts the territory owes the enactment of some of the most beneficial legislation now on the statutes of New Mexico.

Mr. Ancheta is still a young man, but his abilities as a legislator, a lawyer and as a private citizen are so marked that prominence has been forced upon him more than sought. Personally, he is of a quiet, unassuming nature, but for all that, he is justly entitled to the esteem with which he is held by all who know him. As a member of the 32d legislative assembly, Mr. Ancheta will do much toward giving the territory needed and sound legislation and he will undoubtedly be elected by a large majority.

Good Advice.

(Albuquerque Citizen.)

It will be wisdom on the part of the people of this city to give Pedro Perea a rousing majority. All the interests of this city can be served beneficially if this is done.

What Does Ana Will Do.

(Dona Ana County Republican.)

Perea and the whole Republican ticket by over 500 majority! That's what we'll do in Dona Ana. * * * The lowest Republican majority in this county will be over 500. Garrett will have 1,000.

It Looks That Way.

(Albuquerque Citizen.)

Four years ago this county gave the Republican candidate for delegate 1,670 majority. The Republicans are making every effort to give Mr. Perea an increased majority over that of four years ago.

The Business Revival.

(New York Commercial.)

The general waking up of all industrial and business lines is a pleasant thing to contemplate. The revival is now under such headway that it may be expected to last all through the coming winter with but the slight slackening up which occurs during the coldest season.

Great Powers of Computation.

(St. Louis Globe Democrat.)

Again a Democratic arithmetic man has figured that the Democratic majority in the next congress will be three. He counts only two of Missouri's 15 districts as "safely Republican." That settles his powers of computation.

Mr. Perea's Campaign.

(Raton Ranger.)

Hon. Pedro Perea, the Republican candidate for delegate to congress from New Mexico, attended the Republican convention at Clayton, Union county, Saturday. He is visiting every section of the territory and is receiving most encouraging reports of the outcome at the election in November. The people are getting aroused as to the necessity of having a Republican delegate in the next congress.

They Claim the Bath for Ferguson. (Albuquerque Citizen.)

The Democratic papers are actually claiming that Delegate Ferguson secured the tariff on wool. The records of congress show that the Democrats solidly opposed the tariff law, and that a congressman named Dingley introduced the bill.

The Situation in New York.

(Cincinnati Commercial-Tribune.)

Reports from New York show that the Republicans have not been thoroughly united for ten years. That is all that is necessary. There are more Republicans than Democrats in the Empire state, and when they get together Democratic hair will fly.

Should Not Be Encouraged.

(Washington Post.)

There are some offensive Republican partisans in the state of Virginia who should receive the attention of the administration. Holding federal office and stalling the administration in the back via their congressional districts is a pastime that should not be encouraged.

REPUBLICAN PLATFORM.

The Republican party of the territory of New Mexico, in convention assembled at Albuquerque, on the 1st day of October, A. D. 1896, reaffirms its faith in the declaration of principles set forth in the national Republican platform of 1896; and it is with pride that we can again point to the fact that under a Republican administration public credit has been restored, industry revived, factories and workshops reopened and production given to American interests, under which the people are enjoying renewed confidence and prosperity.

We most heartily endorse the Dingley tariff law, enacted by a Republican congress, despite the persistent opposition of the Democratic party. Under that law the sheep and wool and live stock interests have been greatly benefited, and the wealth of this territory benefited many millions of dollars.

We believe in sound money, and in a volume of money sufficient for all business demands. The policy of the present administration in giving employment to labor and protection to our various industries is a solution of the financial question. We are opposed to all financial heresies which call for cheap money, believing that that all money issued by the government should be of uniform and equal value.

We congratulate the country upon the great success of the present national administration, in which our president has distinguished himself as a statesman and a patriot in dealing with domestic and foreign affairs; and in which he has shown so much wisdom in upholding the honor of this nation.

We heartily approve the wisdom of the annexing of the Hawaiian Islands, and we favor the retention by this government of all territory acquired by our army and navy where justice and humanity demand it. We favor the construction of the Nicaragua canal under the immediate supervision and exclusive control of the United States government, the necessity for the canal having been more strongly emphasized by recent events.

We congratulate Governor Otero upon the success of his administration and commend him for his efforts in behalf of good government and the advancement of the material and financial interests of New Mexico both at home and abroad, and we tender to the president of the United States our thanks for the appointment of a governor from the people of this territory, and for the honor of his lifetime residence in New Mexico, and of his intimate acquaintance with the needs of our people is best able to perform the duties of an executive in this territory.

We heartily endorse the present Republican administration in all of its branches. During its brief period in which the present executive has occupied the position he fills, New Mexico has attained a place in the hearts of the American people never before accorded to the patriotism of citizens in sending forth a larger proportion of soldiers to the Spanish-American war than is allotted to any other state or territory, and the bravery of our soldiers' deeds in the battle of La Gran Sra and San Juan, by which was established the intelligence, patriotism and indomitable courage of our people, and where they have won for themselves the admiration of the civilized world, and tender to the relatives and friends of those who fell in the struggle for humanity, justice and civilization, the heartfelt sympathies of a grateful people. We congratulate the nation on the return of peace, and heartily endorse President McKinley upon the careful, patriotic and wise conduct of his administration of this nation has been preserved in the war with Spain.

We congratulate the people of New Mexico upon the appointment by the president of the present able and fearless judiciary, and commend the members thereof for their devotion to duty and their unswerving interest in the administration of justice.

The present congress of the United States is Republican in politics, and any acts of that body favorable to New Mexico are Republican measures and cannot be credited to the efforts of a Democratic delegate from this territory.

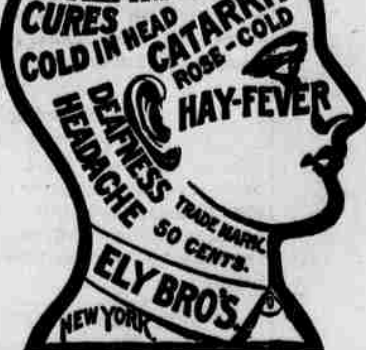

The attitude of the Republican party of New Mexico has always been consistent on the question of the admission of the territory as a state. We favored the admission of the territory when the Democratic party was united in their opposition thereto. We still favor its admission, believing that there is no good and substantial reason for keeping it out of the Union as a state and believe that this can best be accomplished by the election of a delegate to congress who is in harmony with Republican politics and principles.

Our heartfelt gratitude is extended to the army and navy for their noble sacrifices in behalf of their country, and their brilliant achievements on land and water; and we emphasize our appreciation of those brave soldiers known as the "Rough Riders" to whose ranks our territory has so liberally contributed, and whose acts of bravery and heroism have inspired the world with a new faith and confidence in American courage and valor.

We are in favor of increasing both our army and navy to a size commensurate with the interest of the country, thereby placing the nation in a position that will insure it a rightful influence and power among the nations of the earth. We believe in the expansion of American industry and commerce, and in the full protection of American citizens everywhere; wherever the American flag has been hoisted in the name of humanity and freedom, we believe it should stay until every vestige of despotism has been removed.
